

**SUBJECT:** United Engineering Foundation Grants – 2017

**FROM:** Patrick J. Natale, P.E., CAE, FASAE, Executive Director

**DATE:** December 18, 2015

Because of your position in the engineering community I am calling your attention to the cycle that the United Engineering Foundation (UEF) plans to follow in 2016 for the selection of grants for calendar year 2017.

**June 1, 2016** Concept Papers Due (A description of the objectives, scope, approximate costs and general schedule of the activity to be performed – maximum of 2 pages, submitted electronically in PDF format along **with the attached cover page to [grants@UnitedEngineeringFnd.org](mailto:grants@UnitedEngineeringFnd.org)**).

**July 1, 2016** By this date the UEF Grants Committee will select the concept papers from which formal grant proposals will be invited.

**August 1, 2016** Formal Grant Proposals Due (Proposals, submitted electronically, must cover such key areas as the organizations involved, detailed objectives, detailed schedule, business plan and how the project contributes to the furtherance of the engineering profession - preference will be given to multidisciplinary proposals).

**September 1, 2016** UEF Grants Committee, by this date, will prioritize the proposals received and submit this prioritization to the UEF Board of Trustees.

**October 1, 2016** UEF Board of Trustees will select the grants to be funded in calendar year 2017.

Your attention is directed to the enclosure. It contains important information about the UEF Grants Policies. Please let me know if you desire any further information.
